Sprint Retrospective

Fall 23

Fill out the following fields marked in blue. For tables with N number of rows, add more rows as necessary.

Team Information

Team Name	Elite Alpha Strike Force
Team Members	Andrew Lawson, Jonathan Delemos, Paul Arnett, Kaden Bettencourt, Majd Hameed
Sprint #	02
Sprint Date Range	10 / 17 - 11 / 4

Retrospective

What worked or went well?

Upon reflection, our team sees how valuable our collective ideas are. They forged a figma prototype we were proud of. Regarding the System Design Document, we had good time management and were able to complete it in a timely manner.

What causes problems or did not go well?

We ended up revising our figma prototype at multiple points throughout the sprint which wasted a lot of time. This time could have been better spent getting a head start on the implementation process.

What can be done differently in the next Sprint to improve the process?

We think spending a little bit more time on the sprint planning would create more productivity and better time management throughout the sprint. For the next sprint we plan to give ample time to make sure we are all on the same page when it comes to implementation.
